

## RHOBA LAVIA Z301

(RHOBACLEAN 399 STU Additiv WAS)

ARTICLE-NO. 030080

### Cleaning and degreasing booster

#### APPLICATION

Add **RHOBA LAVIA Z301** to the cleaning bath when the washing power of the bath has noticeably decreased, but the pH value of the bath is still within the specified range.

For exact dosing, it is necessary to determine the surfactant content of the bath in order to restore the original concentration of surfactants with **RHOBA LAVIA Z301**.

If the surfactant content of the bath is not determined, we recommend a dosage of 30 - 60 liters of **RHOBA LAVIA Z301** per 1000 liters of the cleaning bath.

#### PROPERTIES

- extends the service life of degreasing baths by multiple times
- is used to increase the washing power of degreasing baths without changing the builder content
- does not change the pH value, as the pH value is neutral

#### TECHNICAL DATA

|                  |                   |
|------------------|-------------------|
| Appearance       | colorless liquid  |
| Density at 20 °C | approx. 1,02 g/ml |
| pH-value         | approx. 8,5       |

Check material compatibility in an inconspicuous area prior to use. Follow the manufacturer's cleaning and care instructions! No liability can be accepted for improper use and any resulting damage.

#### STORAGE

Storage temperature: 5-30 °C

Shelf live: 12 months
